Individual Feedback Report

Introduction

You recently participated in a multi-rater feedback survey. Both you and your raters were asked to provide ratings of your effectiveness on many behaviors. The individuals who rated you were categorized by what relationship they have to you. For example, they may have been your leaders, colleagues, and persons directly or indirectly reporting to you. They were asked to be fair and accurate and to base their ratings on their observations of your performance in specific areas. This report presents the results of this multi-rater feedback process and contains your self-ratings and the ratings provided by your co-workers, as well as written feedback provided by your raters if applicable.

Purpose

The purpose of the multi-rater feedback survey is to help you explore how you contribute to the success of your organization, and to help you identify opportunities to become more successful and more fulfilled in your role. The report will identify “the gap”, which is defined as the difference of how you rate yourself compared to the individuals that rated your ability to perform based on the specific competencies

Rating Scale

The rating scale shown below was used in scoring quantitative feedback.
